R&G CRASH BOBBINS FOR GSX-R600/750 £42.54

R&G RACING has developed crash bobbins for Suzuki's GSX-R600 and 750 K8 models that are designed to prevent paddock stands damaging the end-can, after customers reported that the built-in bobbin mounts were too close to the exhaust.

cotton reel that is designed to replace the chain adjuster plates, and carry the bobbins on the end. The brackets are machined from aluminium, and the bobbins from high-density Polyethylene and the price is £42.54. For more info, call 01420-521100, or visit www.rg-racing.com
